

FICHA DE DATOS DE SEGURIDAD

SAFETY DATA SHEET

CURSED SKULL

English version nº 1

SECTION 1: Identification of preparation and company

1.1 Identificación of preparation:

Cursed Skull

1.2 Use

Cosmetic: Tattooing bioactive vaseline

1.3 Identificación of company:

Details of the company responsible for palcing market:

RUFNER DISTRIBUCIONES S.L.

C/ Maracay 28. P.I. San Luis

Tlf.: + 34 952 241 616

web: www.aloetattoo.es

1.4 Emergency telephone:

Instituto Nacional de Toxicología y Ciencias Forenses

+34 915 620 420 (Información en español 24h/365días).

Únicamente con la finalidad de proporcionar respuesta sanitaria en caso de urgencia.

SECTION 2: Hazard Identification

2.1 Classification of the mixture:

2.1.1 Directive 67/548/EEC and Directive 1999/45/EC:

The classification of the mixture was carried out in accordance with Royal Decree 363/1995 (Directive 67/548/EEC) and the Royal Decree 255/2003 (Directive 1999/45/EC), adapting the requirements to Regulation (EC) 1907 / 2006 (REACH Regulation) pursuant to Royal Decree 1802/2008.

NA

2.1.2 Regulation 1272/2008 (CLP):

The classification of the mixture was made under Regulation 1272/2008 (CLP), determines:

Harmful if swallowed

2.2 Label elements:

Based on Directive 67/548/EEC and Directive 1999/45/EC and Regulation 1272/2008 (CLP), the labeling elements are:

Pictograms: NA

Do not ingest. Keep out of reach of children. In case of accident to the Medical Toxicology Information Service, telephone 91 562 04 20.

2.3 Other hazards

NA

	(-)		

Section 4: First Aid Measures

4.1 Description of first aid measures :

If swallowed, seek medical advice immediately (if possible , show this label) . Never give anything by mouth to an unconscious person.

Inhalation

No relevant

For skin contact

Symptoms: May cause burn in case of contact with product at high temperature. Remove contaminated clothing and footwear and dispose of safely. Wash affected area thoroughly with soap and water. Seek medical attention if skin irritation, swelling or redness develops and persists. For minor thermal burns: Cool the burn. Hold the burned area under cold running water for at least five minutes, or until the pain subsides. However, body hypothermia must be avoided. Do not put ice on the burn; Remove non-sticking garments carefully. DO NOT attempt to remove portions of clothing glued to burnt skin but cut round them. Seek medical attention in all cases of serious burns.

On contact with eyes :

Symptoms: slight irritation (unspecific). May cause burn in case of contact with product at high temperature. Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do so. Continue rinsing. If irritation, blurred vision or swelling occurs and persists, obtain medical advice from a specialist. If hot product is splashed into the eye, it should be

cooled immediately to dissipate heat, under cold running water. Immediately obtain specialist medical assessment and treatment for the casualty.

Ingestion:

Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

4.2 Most important symptoms and effects, both acute and delayed:

No symptoms or delayed effects . If acute symptoms are indicated in sections 2 and 11.

4.3 Indication of any immediate medical attention and special treatment needed immediately :

Not relevant .

SECTION 5: Firefighting

Means of Extinction:

Foam (Specifically trained personnel only)- Water fog Specifically (trained personnel only)- Dry chemical powder- Carbon dioxide- Other inert gases (subject to regulations)- Sand or earth. Do not use direct water jets on the burning product; they could cause splattering and spread the fire. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam.

5.2 Special hazards arising from the mixture:

No relevant.

5.3 Advice for firefighters:

Wear self-contained breathing systems and protective clothing. The case of fire and / or explosion avoid breathing fumes. Containers should be cooled with water to prevent the increase in vapor pressure.

SECTION 6: Accidental discharge

6.1 Personal precautions, protective equipment and emergency procedures:

No relevant

6.2 Environmental precautions :

Avoid contamination of surface or groundwater, and soil . Do not allow product to reach sewage system . In case of large spills or if the product contaminates lakes , rivers or sewers , inform the responsible authorities according legislation.

6.3 Methods and materials for containment and cleaning up:

Absorb spillage onto sand or inert absorbent (sawdust , earth, ...) and remove to safe place. Collect if possible in closed containers. Clean remainder with plenty of water. The resulting liquid can be disposed down the drain as a domestic landfill .

6.4 Reference to other section.

For waste, refer to section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Do not use if you have lost or damaged the button. Comply with current legislation on safety and health at work . Do not eat , drink or smoke while handling. Avoid contact with eyes .

7.2 Conditions for safe storage, including any incompatibilities:

Avoid holding for extended periods to sunlight . The heat can increase the temperature of the containers. Keep away from flames, sparks and heat sources .

7.3 Specific end :

NA

SECTION 8: Exposure controls / personal protection

8.1 Control parameters :

Petrolatum: Not available

8.2 Exposure controls :

Eye protection with chemical goggles . Hygiene measures: Wash hands with soap and water, use gloves.

Eye protection / face protection : Wear eye protection tested and approved under standards such as NIOSH (U.S.) or EN 166 (EU).

Skin protection : Handle with gloves. Gloves must be inspected prior to use . Use proper glove removal technique (without touching glove 's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices laws. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it .

Body protection: Choose body protection according to their characteristics , the concentration and amount of dangerous substances, and the specific workplace, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance instead . specific work .

Respiratory protection: Respiratory protection not required . Where protection is desired Use respirators and components tested and approved under appropriate standards as NIOSH (U.S.) or CEN (UE).

SECTION 9: Physical and Chemical Properties

9.1 Appearance:	Paste
9.2 Odor:	NA
9.3 Solubility in water:	Partly in water.
9.4 Boiling point:	Not determined
9.5 Decomposition temperature:	Not determined.
9.6 Pressure / steam density:	Not determined
9.7: pH	NA
9.8 Explosive limits:	No flammable.

SECTION 10: Stability and reactivity

10.1 Reactivity:

No risk of ignition.

10.2 Chemical stability:

Stable under normal conditions of use.

10.3 Possibility of hazardous reactions.

NA

10.4 Conditions to avoid:

High temperatures.

10.5 Incompatible materials:

Oxidizing agents.

10.6 Hazardous Decomposition.

No produce toxic gas in decomposition.

SECTION 11: Toxicological Information

11.1 Local effects: Harmful if swallowed

Petrolatum LD50 oral (rabbit): 3600 mg/kg

11.2 Chronic toxicity

Redaction: April/2017

Revision: -----

Petrolatum

NA.

11.3 Effects on humans:

Petrolatum

Skin: Not likely to cause skin irritation. May cause irritation in sensitive individuals. Low hazard for usual industrial handling. It does not readily penetrate the skin. Eyes: May cause mild eye irritation. Inhalation: Inhalation of mist or nebulized particles of this material may cause respiratory tract irritation. Symptoms may include coughing, breathing difficulty, and chest pain. Ingestion: Ingestion of large amounts may cause gastrointestinal tract irritation.

SECTION 12: Ecological Information

12.1 Acute aquatic toxicity:

Petrolatum

NA

12.2 Persistence and degradability:

Not available.

12.3 Potential bioaccumulation

Not available

12.4 Mobility in soil

Not available

12.5 Results of PBT and vPvB assessment

Not available

12.6 Other adverse effects

Not available

Section 13: Disposal Considerations

13.1 Disposal:

Wastes and empty containers without cleaning should be handled and disposed of according to local / national regulations. Where appropriate, returned to the manufacturer or disposed of in accordance with state, regional and local legal requirements and applicable environmental regulations. Empty containers can be returned to the manufacturer or should be recycled or disposed of through a management facility approved waste.

Disposal of empty containers: Containers can be managed and disposed of by incineration or landfill as domestic containers and according to local / national regulations.

13.2 Disposal considerations:

The remaining liquid can be disposed to sewage after dilution with water, but according to local regulations.

SECCIÓN 14: Información relativa al transporte

HAZARDOUS INGREDIENTS: NO FLAMMABLE

14.1 Transportation by Road (ADR) and by Rail (RID):

Suitable

14.2 Transport by sea (IMDG):

Suitable

14.3 Transportation by Air (ICAO / IATA)

Suitable

Section 15: Regulatory Information

The substance (s) is (are) listed (s) in EINECS, ELINCS, NPL inventories, or is (are) exempt (s).

- **Classification according to Regulation (EC) No 1272/2008 on classification, packaging and labeling**

Simbols and advertences: NA

H302: Harmful if swallowed.

Precautionary statements:

NA

OTHER INFORMATION:

Do not ingest.

In case of accident to the National Poisons Information Service, Telephone 91 562 04 20

SECTION 16: Other information

The information contained herein is offered based on available knowledge about the product at the time of publication. Any use of the product other than indicated or combination with others is your responsibility. The specifications of this safety data sheet describe the safety requirements of our product and are not a guarantee of characteristics.

Composition communicated to the National Institute of Toxicology and Forensic Sciences. Information about applications, dose and form of employment in the corresponding safety data sheets and labeling .
